EDUCATION

UNIVERSITY OF TORONTO 2018 - PRESENT
B.Sc (Hons), Specialist in Physics & Astrophysics

THESIS: *Hunting for Fast Radio Bursts (FRBs) with SWIFT/bat*
SUPERVISORS: Dr. Ziggy Plenuis & Dr. Paul Scholz and Prof. Bryan Gaensler

THESIS: *Gravitational waves from magnetar giant flares*
SUPERVISORS: Dr. Sarah Gossan & Prof. Bryan Gaensler

PUBLICATIONS

Maxwell A. Fine, Cameron L. Van Eck, & Luke Pratley “Correcting Bandwidth Depolarization by Extreme Faraday Rotation”, Monthly Notices of the Royal Astronomical Society 2022, *submitted*.

AWARDS

3rd Year John Pounder Prize In Astronomy FALL, 2021
Awarded to a full-time student entering the third year of a physical sciences program on the basis of excellent achievement in astronomy courses (\$300)

Undergraduate Student Research Award (USRA) SUMMER, 2021
Canadian Institute for Theoretical Astrophysics (\$6,000)

Student Excellence and Leadership Award 2019-2020
Department of Physical & Environmental Sciences
For academic excellence and community leadership (\$350)

2nd Year John Pounder Prize In Astronomy FALL, 2019
Awarded to a full-time student entering the second year of a physical sciences program on the basis of excellent achievement in astronomy courses (\$300)

RESEARCH EXPERIENCE

Hunting for Fast Radio Bursts (FRBs) with SWIFT/bat Current
Dunlap Institute: Summer Undergraduate Research Program (SURP)
AST425: Undergraduate Thesis
Supervisor: Dr. Ziggy Plenuis & Dr. Paul Scholz and Prof. Bryan Gaensler
Searching for and placing limits on the X-ray & gamma-ray emission from CHIME/FRBs using Swift/BAT and GUANO.

Gravitational waves from magnetar giant flares Winter, 2022
PHYD01: Undergraduate Thesis
Supervisor: Dr. Sarah Gossan & Prof. Bryan Gaensler
Determined if it is possible for the next generation of ground-based detectors to observe gravitational wave emission from magnetar giant flares.

Developing robust error analysis for radio polarization surveys Summer 2021
Dunlap Institute: Summer Undergraduate Research Program (SURP)
Supervisor: Dr. Cameron L. Van Eck
Helped to develop part of the error analysis pipeline for Polarization Sky Survey of the Universe’s Magnetism (POSSUM).

Hunting for radio sources in extreme magnetized environments

Dunlap Institute: Summer Undergraduate Research Program (SURP)

Summer 2020

Supervisor: Dr. Cameron L. Van Eck

Developed an improvement to the RM synthesis algorithm used in RM-Tools.

TEACHING EXPERIENCE

Teaching Assistant

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2021

Ran weekly two hour long practical sessions for ~ 10 -15 students, and marked assignments & exams

Teaching Assistant

PHYA22: Introduction to Physics II for the Life Sciences

Winter, 2021

Ran weekly two hour long practical sessions for ~ 10 -15 students, and marked assignments & exams

Teaching Assistant

PHYA11: Introduction to Physics I for the Life Sciences

Fall, 2020

Ran weekly two hour long practical sessions for ~ 10 -15 students, and marked assignments & exams

Facilitated Study Group Leader

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2020

Ran weekly study group sessions for ~ 10 -15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

Facilitated Study Group Leader

PHYA21: Introduction to Physics II for the Physical Sciences

Winter, 2020

Ran weekly study group sessions for ~ 10 -15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

Facilitated Study Group Leader

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2019

Ran weekly study group sessions for ~ 10 -15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

SERVICE AND OUTREACH

Dunlap Institute: Astrotours Volunteer

Summer & fall, 2022

Scarborough Campus Student Union: Director for Department of Physical & Environmental Sciences

2021-2022

Attended monthly Student Union meetings with the other director & executive officers. Aided in the planning of student lead initiatives including the fall of 2020 Climate Strike, served as liaison between student union and department association.

Winter Solstice Telescope Night

Winter, 2021

Telescope operator

Environmental & Physical Sciences Student Association: Director for Physics & Astrophysics

2018-2020

In charge of planning and programming events, including the physics & astronomy 'mix and mingle', organization of the Physics Study Centre, and participation in outreach events.

Environmental & Physical Sciences Student Association: Physics Tutor

2019-2022

Volunteer tutor at the Physics Study Centre

Dunlap Institute: Earth Hour Volunteer

Winter, 2019
