EDUCATION

University of Toronto

2018 - Present

B.Sc (Hons), Specialist in Physics & Astrophysics

Thesis: Hunting for Fast Radio Bursts (FRBs) with SWIFT/bat

SUPERVISORS: Dr. Ziggy Plenuis & Dr. Paul Scholz and Prof. Bryan Gaensler

Thesis: Gravitational waves from magnetar giant flares
Supervisors: Dr. Sarah Gossan & Prof. Bryan Gaensler

PUBLICATIONS

Maxwell A. Fine, Cameron L. Van Eck, & Luke Pratley "Correcting Bandwidth Depolarization by Extreme Faraday Rotation", Monthly Notices of the Royal Astronomical Society 2023. ArXiv link.

Speaking Engagements

Panelist at ADL's Never is Now Conference

Fall, 2022

The Anti-Defamation League (ADL) is the world's largest organization dedicated to fighting antisemitism. I was invited to be a panelist speaking about antisemitism on College campuses, along with two other students from the USA & Canada. The conference was at the Javists Center in NYC.

Awards

3rd Year John Pounder Prize In Astronomy

Fall, 2021

Awarded to a full-time student entering the third year of a physical sciences program on the basis of excellent achievement in astronomy courses (\$300)

Undergraduate Student Research Award (USRA)

Summer, 2021

Canadian Institute for Theoretical Astrophysics (\$6,000)

Student Excellence and Leadership Award

2019-2020

Department of Physical & Environmental Sciences

For academic excellence and community leadership (\$350)

2rd Year John Pounder Prize In Astronomy

Fall, 2019

Awarded to a full-time student entering the second year of a physical sciences program on the basis of excellent achievement in astronomy courses (\$300)

RESEARCH EXPERIENCE

Hunting for Fast Radio Bursts (FRBs) with SWIFT/bat

Current

Dunlap Institute: Summer Undergraduate Research Program (SURP)

AST425: Undergraduate Thesis

Supervisor: Dr. Ziggy Plenuis & Dr. Paul Scholz and Prof. Bryan Gaensler

Searching for and placing limits on the X-ray & gamma-ray emission from CHIME/FRBs using Swift/BAT and GUANO.

Gravitational waves from magnetar giant flares

PHYD01: Undergraduate Thesis

Winter, 2022

Supervisor: Dr. Sarah Gossan & Prof. Bryan Gaensler

Determined if it is possible for the next generation of ground-based detectors to observe gravitational wave emission from magnetar giant flares.

Developing robust error analysis for radio polarization surveys

Dunlap Institute: Summer Undergraduate Research Program (SURP) Summer 2021

Supervisor: Dr. Cameron L. Van Eck

Helped to develop part of the error analysis pipeline for Polarization Sky Survey of the Universe's Magnetism (POSSUM).

Hunting for radio sources in extreme magnetized environments

Dunlap Institute: Summer Undergraduate Research Program (SURP) Summer 2020

Supervisor: Dr. Cameron L. Van Eck

Developed an improvement to the RM synthesis algorithm used in RM-Tools.

TEACHING EXPERIENCE

Teaching Assistant

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2021

Ran weekly two hour long practical sessions for $\sim 10\text{-}15$ students, and marked assignments & exams

Teaching Assistant

PHYA22: Introduction to Physics II for the Life Sciences

Winter, 2021

Ran weekly two hour long practical sessions for $\sim 10\text{-}15$ students, and marked assignments & exams

Teaching Assistant

PHYA11: Introduction to Physics I for the Life Sciences

Fall, 2020

Ran weekly two hour long practical sessions for $\sim 10\text{-}15$ students, and marked assignments & exams

Facilitated Study Group Leader

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2020

Ran weekly study group sessions for ~ 10 -15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

Facilitated Study Group Leader

PHYA21: Introduction to Physics II for the Physical Sciences

Winter, 2020

Ran weekly study group sessions for ~ 10 -15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

Facilitated Study Group Leader

PHYA10: Introduction to Physics I for the Physical Sciences

Fall, 2019

Ran weekly study group sessions for \sim 10-15 students. Attended lectures, created practice problem sets, and hosted review sessions for midterm and final exam.

COMMUNITY AND OUTREACH

Dunlap Institute: Astrotours Volunteer

Summer & fall, 2022

Scarborough Campus Student Union: Director for Department of Physical & Environmental Sciences 2021-2022

Attended monthly Student Union meetings with the other director & executive officers. Aided in the planning of student lead initiatives including the fall of 2020 Climate Strike, served as liaison between student union and department association.

Winter Solstice Telescope Night

Winter, 2021

Telescope operator

Environmental & Physical Sciences Student Association: Director for Physics & Astrophysics 2018-2020

In charge of planning and programming events, including the physics & astronomy 'mix and

mingle', organization of the Physics Study Centre, and participation in outreach events.

Environmental & Physical Sciences Student Association: Physics Tutor 2019-2022 Volunteer tutor at the Physics Study Centre

Dunlap Institute: Earth Hour Volunteer Winter, 2019
